BETTER BRANDS

HELPING BUILD

The end of 2019 is rushing toward us and a brand new decade looms on the horizon. There is no better time to show both your staff and your clients how much they have meant to you, and how much you appreciate them going forward. From promotional items to loyalty gifts and employee recognition, Axis Gear is able to provide you with a huge, sometimes daunting, selection of options. This year we decided to give you some recommendations to help streamline the giving process. The team at Axis Gear selected a variety of products ranging from luxurious and indulgent to price conscious and fun. Everything in this guide can be branded or personalized. We tried to give you a good selection of ethical, environmentally friendly, and sustainable gifts as well as an assortment of innovative and unique options, that are just *neat*.

While we want to show you some of our favourites, this is, by no means, the limit! We can source everything you need, domestically or internationally. We are proud members of the Promotional Products Professionals

of Canada and the Advertising Specialties Institute. Brand name goods, custom apparel, even made to order stuffed animals, we do it all, and we do it well. Get in touch and we can come up with a creative solution to help you.

After nearly 20 years, Axis Gear has the experience and creativity to help you with all your branding and promotional needs. We look forward to a new decade of being partners in growing your brand and showing people what you are all about!

WE NEED A GREEN CHRISTMAS

GIFTING FOR THE FUTURE

Give the gift of a healthy planet for future generations. We offer a huge selection of Eco friendly, sustainable sourced and recycled options for all your gift requirements. Our favourites for 2020 include the ecologically friendly and economical seeded paper products. There are pencils that you can plant once they get too short. The pencil later becomes the marker for your budding basil plant. Greeting cards, paper ornaments, and

calendars get a second life by planting them in the soil, in a short time you'll have wildflowers, herbs, or fresh veggies!
